WELCOME TO DPM GLASSTECHNIC - a division of Daum + Partner GmbH

PRODUCTION

We grow with your requirements

Close to the production of glass containers on IS machines, further extensive equipments and facilities are needed to conclude the manufacturing process of the containers. Cooling-, refining-, coating- or transportation systems are proven for many years and are sold successfully to our customers, constantly growing with customers' needs.

PROCESSING

Our expertise for your success

Design and manufacturing is based on profound skills with more than three decades of experience in the glass container industry. This makes it possible to implement the ideas and individual needs of our customers on highest levels.

QUALITY

Quality is conformance

We use modern technologies and quality processes to meet these principles. The certification according to DIN EN ISO 9001 is an important element of our quality philosophy since years.

SPARE PARTS

Always on the safety side

For our premium equipments and spare parts for IS machines of different manufacturers in OEM quality we guarantee absolute compatibility and production flows, free of interference.
